

# 室堂・雄山エリア

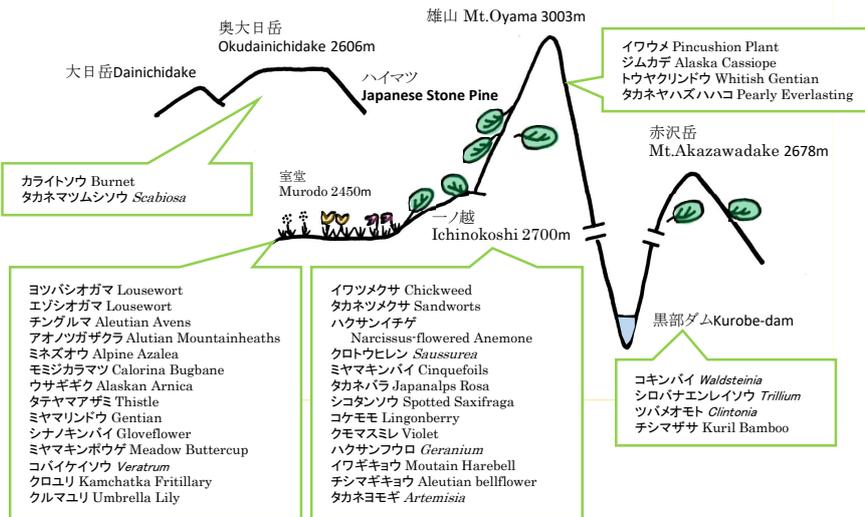

Murodo & Mt.Oyama area

室堂の標高は約2450m、そこはハイマツの樹海と高山植物のお花畑。  
 雄山の標高は3003m。岩肌にはりついてイワウメやジムカデが白い花をつける。砂礫地にはミヤマキンバイやイワギキョウ、イワツメクサが咲く。  
 ハイマツのそばにガンコウランやミネズオウが育つ。草原にはコバイケイソウやハクサンイチゲ、シナノキンバイ、オタカラコウが群落を作る。

Murodo has an altitude of about 2,450m, which is covered with stone pine vegetation and alpine meadow. Mt. Oyama is 3,003m above sea level.  
 Clinging on the rock surface, Pincushion Plant and Alaska Cassiope give white flowers. In the gravel land, Cinquefoils, Mountain Harebell and Chickweed are blooming. Black Crowberry and Alpine Azalea grow near Japanese Stone-pine thicket. In the alpine meadow, *Veratrum*, Narcissus-flowered Anemone, Gloveflower and *Ligularia* make a community.

## 室堂・雄山エリアの植生 Vegetation in Murodo and Mt. Oyama area
